

# MineXP

Transform your Management Planning and Analytics Environment

## MineXP

A Revolutionary Management Planning and Analytical Solution Designed Specifically for the Mining Industry.

## ACHIEVE HIGHER LEVELS OF EFFICIENCY AND DEEPER INSIGHTS FOR YOUR FINANCE DEPARTMENT

MineXP revolutionises the **finance department** in the mining industry by providing a game-changing solution that seamlessly integrates essential elements such as **finance, production, bill of materials, labour headcount, maintenance costing, and capex** within a unified enterprise-wide application built on the **Board Intelligent Planning software platform** for superior performance.

Designed to optimise the value of the planning and reporting function within a mining organisation across all divisions, reporting levels, and company resources.

This integration expedites **mine planning and analytics processes**

Offering an **integrated planning environment** that promotes **collaboration** across sales, operations, finance, and HR.

Through **real-time planning**, executives gain access to **up-to-date information**, empowering them to quickly make well-informed decisions.

**MineXP's scenario-based planning capabilities** foster agile operations, while the incorporation of **predictive analytics** further enhances the organisation's decision-making capabilities, equipping them with valuable foresight.

## Key benefits include:

- Enhanced decision making
- Increased transparency and accountability
- Improved accuracy and efficiency
- Linking the strategy to the financial plan
- Decreased financial planning complexity and risk
- Enhanced collaboration and communication across the enterprise
- Greater agility and flexibility
- Bridging the gap between finance and operations

MineXP integrates drivers and advanced logic, **enabling interactive calculations and validations**. This results in automated and escalated base plans delivered across various currencies with speed and accuracy.

It covers aspects from **operating budget to life of mine and ESG dashboarding**, ultimately harnessing the power of data to significantly enhance business agility.

Transform your **Management Planning and Analytics Environment!**
